

TRAVEL INSURANCE

Quick review of three Terra Group's insurances. For further information please read the PDF document of each insurance.

The banking cards like Visa, Mastercard or American Express within their validity period cover some of the expenses involved in your travel booking.

Be informed about your rights before the booking. If this is not the case or if you wish to subscribe to complementary insurances, Terra Group proposes three types of travel insurances, in association with Valeurs Assurances.

Note 1: These insurances also cover your international flight. Please advise your travel agent the price of the ticket in order to define the insurance contract including the Flight + the Land Part operated by the agency.

Note 2 : Are you going for a trek or a climb at more than 4000 meters of elevation ? Or to practice a sport with a certain level of risk (rafting, canyoneering, via ferrata, diving...)? These activities are not covered by the insurances presented in this document. You can subscribe to a specific insurance.

Note 3 : These insurances are available for all nationalities.
